UNITA DIGITAL TRANSITION HUB

THEMATIC WEMINARS

OBJECTIVES

The UNITA Digital Transition hub organizes a series of weekly thematic webinars previous to the face-to-face matching events. The aim of these events is:

- Presenting the Digital Transition Hub to the groups that work in the areas of the Hub.
- Fostering mutual knowledge among the research groups of UNITA universities that show potential synergies in the topics of the Digital Transition Hub.
- Paving the way to potential collaborations that might be further developed in the Hub matching events in 2025, thus making these matching events more effective.

Hence these webinars will provide a chance to meet in advance those planning to attend the matching events or to present themselves for those that cannot attend in person these matching events.

METHODOLOGY

The structure of each webinar is as follows:

Time	Activity
10'	Presentation of the webinar and the DT Hub (Antonio López)
2'-5' per participant	Presentation of each research group
15'	Discussion about potential synergies and collaborations

The time assigned for presentation of each research group depends on the number of groups that participate. The expected duration for each webinar is 1 hour.

The planned webinars are as follows. All them will be held **from 11:30h to 12:30h CET**.

Webinar	Date	Registration Deadline
Artificial Intelligence and Machine Learning	14/2/2025	11/2/2025
E-learning	21/2/2025	18/2/2025
E-health	28/2/2025	25/2/2025
Manufacturing & Industry 4.0	07/3/2025	04/3/2025
Cryptography & Cybersecurity	14/3/2025	11/3/2025
Green ICT and IoT	21/3/2025	18/3/2025

REGISTRATION

Registration to any of the webinars can be done at the following link:

https://forms.office.com/e/wsWnVzpB4q

There is no limit on the number of participants that can attend the webinar but only the first 20 registered participants can present their group. Participants above this limit will be informed about this.

Participants are encouraged to prepare a 1-page PPT or PDF slide (landscape format) for the presentation of the group. These slides will be merged in a single file and distributed among the participants.

Deadline for registration is **3 days before** the date of the webinar. After the deadline, an email will be sent to registered participants with the link to the webinar, time available to present their group and instructions for presentation file upload.
